Mr. Michael Callan  
Project Engineer  
Vitrinite  
PO Box 87  
MORNINGSIDE QLD 4170

Dear Mr Callan

**RE VULCAN PROJECT LOT 10SP208611**

I can confirm that the development proponent has advised Isaac Regional Council about the proposed project and the subsequent Mining Development Lease (MDL) application.

The proponent has submitted the applicable Traffic Impact Assessment and Pavement Impact Assessment and has agreed to provide a Road Use Management Plan for the affected transport infrastructure.

Based on the receipt of these documents and Maintenance Agreement being successfully negotiated between Council and the proponent, Council holds no objection to the application being made to the relevant authority.

Yours faithfully

  
**GARY STEVENSON PSM**  
**Chief Executive Officer**
