*Environmental Protection Act 1994*

## Submission of a progressive rehabilitation and closure plan

*This is the approved form for a progressive rehabilitation and closure plan (PRC plan) under section 126C of the Environmental Protection Act 1994 for a site-specific application for a mining activity relating to a mining lease.*

### Only use this application form if you are required to submit a PRC plan, where:

- ) You are applying for a new site-specific environmental authority for a mining activity relating to a mining lease.

OR

- ) You have an existing site-specific environmental authority for a mining activity relating to a mining lease and have received a transition notice from the administering authority<sup>1</sup> in accordance with section 754 of the *Environmental Protection Act 1994* (EP Act).

### Before completing this application form it is recommended that you:

- ) Read the Guideline – Progressive Rehabilitation and Closure Plans (ESR/2019/4964<sup>2</sup>), which explains the information you are required to provide with this application.
- ) Have a pre-lodgement meeting. To request a pre-lodgement meeting, please fill out and lodge the form Application for pre-lodgement services (ESR/2015/1664).

If you require assistance in answering any part of this form, or have any questions about your application, please contact the relevant business centre. Contact details are at the end of this form (Section 10).

### Privacy Statement

The administering authority is collecting the information on this approved form to process your application for a PRC plan. The collection of information is authorised under Chapter 3 and Chapter 5 of the EP Act. Some of the information may be disclosed to the Department of Natural Resources, Mines and Energy and Queensland Treasury for the purpose of processing this application.

Please note that the administering authority is required to keep this application on a register of documents open for inspection by members of the public under section 541 of the EP Act, and must permit a person to take extracts from the register pursuant to section 542 of the EP Act.

Your personal information will not be otherwise disclosed to any other parties unless authorised or required by law. For queries about privacy matters please email [privacy@des.qld.gov.au](mailto:privacy@des.qld.gov.au) or telephone 13 74 68.

	<p>the administering authority on a stated day that is on or after the assent date, or does not state a day when the document must be given; and</p> <p>iii. the document is received by the administering authority within three years after the assent date; and</p> <p>iv. the administering authority does not, within 20 business days after receiving the document, give the environmental authority holder a notice that the document is insufficient in a material particular relevant to a matter in subparagraph (i);</p> <p>d) a report evaluating an EIS under the <i>State Development and Public Works Organisation Act 1971</i>, section 34D;</p> <p>e) an EIS assessment report;</p> <p>f) a written agreement between the holder of an environmental authority mentioned in paragraph (a) and the State that is in force on the assent date.</p>
Improvement area	For a non-use management area, means an area of land in the non-use management area to which a management milestone relates.
Management milestone	For a non-use management area, means each significant event or step necessary to— <ul style="list-style-type: none"> <li>a) achieve best practice management of the area; and</li> <li>b) minimise risks to the environment.</li> </ul>
Non-use management area	Means an area of land the subject of a PRC plan that cannot be rehabilitated to a stable condition after all relevant activities for the PRC plan carried out on the land have ended.
Post-mining land use	For land the subject of a PRC plan, means the purpose for which the land will be used after all relevant activities for the PRC plan carried out on the land have ended.
PRC plan	For land the subject of a mining lease, means a progressive rehabilitation and closure plan for the land that consists of – <ul style="list-style-type: none"> <li>a) the rehabilitation planning part of the PRC plan; and</li> <li>b) the PRCP schedule for the PRC plan, including any conditions imposed on the schedule.</li> </ul>
PRCP schedule	For a PRC plan, means a schedule of the plan that – <ul style="list-style-type: none"> <li>a) complies with section 126D of the EP Act; and</li> <li>b) is approved under chapter 5, part 5, division 2 of the EP Act, with or without conditions.</li> </ul>
Rehabilitation area	For land the subject of a post-mining land use, means an area of the land to which a rehabilitation milestone for the post-mining land use relates.
Rehabilitation milestone	For the rehabilitation of land, means each significant event or step necessary to rehabilitate the land to a stable condition.

### **Appendix 1–PRC plan structure**

Appendix 1 describes the formatting/structural requirements for a completed PRC plan. This includes the information required in a PRC plan cover page and table of contents, and the structure of a PRC plan.

A PRC plan must include the following sections in the order listed:

- 1. Cover page**
- 2. Table of contents**
- 3. Rehabilitation planning part**
  - 3.1. Project planning:** This section will include baseline information, site location details, a description of the project and information on rehabilitation/improvement planning.
  - 3.2. Community consultation:** This section will include information on stakeholder consultation including a community consultation register and community consultation plan.
  - 3.3. Post-mining land use:** This section will include the assessment of PMLU options, methodology for determining PMLU options, and details of each nominated PMLU.
  - 3.4. Non-use management areas (if applicable):** This section will include the justification for the NUMA and details of each nominated NUMA.
  - 3.5. Rehabilitation management methodology:** This section will include information describing how the proposed rehabilitation and management methodology have been developed and will be implemented.
  - 3.6. Risk assessment:** This section will include a risk assessment that identifies the risk of a stable condition for land not being achieved and a risk treatment plan outlining how the applicant will manage or minimise the risk.
  - 3.7. Monitoring and maintenance:** This section will include a monitoring and maintenance program that identifies and describes the monitoring systems that will be undertaken to demonstrate a milestone and milestone criteria have been achieved.
- 4. Appendices and attachments:** The completed PRCP schedule and any relevant required reports/plans are to be included in this section.

A PRC plan must contain a cover page including the following information:

- ) Title of the project
- ) Document title
- ) Version number
- ) Document ID number
- ) Date of submission
- ) Tenure number(s)
- ) EA holder name
- ) EA holder contact details

A PRC plan must contain a table of contents including the following information:

- ) Sections of PRC plan
- ) Sub-sections of PRC plan
- ) Figures, tables and maps (as applicable)

**Attachment 1–Spatial data requirements for PRC plan**

Attachment 1 provides guidance on the required content of spatial information (shapefiles) for the submission of a PRC plan. This attachment should be read in conjunction with the department’s guideline: Spatial Information Submission. To obtain a copy of the guideline visit [www.qld.gov.au](http://www.qld.gov.au) and search ‘ESR/2018/4337’. The following sections provide information about the required fields and attributes for datasets.

**Required files – Table 1**

The applicant must submit shapefiles detailing the following:

- ) the location and maximum extent of disturbance footprint for the mine life
- ) the PMLU and NUMAs for the area within the resource tenure(s)
- ) the rehabilitation and improvement areas within the resource tenure(s)
- ) any sensitive receptors
- ) extent of a floodplain
- ) existing rehabilitation (if the PRC plan is for an existing EA)

Each geometry type must be submitted in a separate file, as outlined within table 1. Each file must be named in accordance with the requirements outlined within the department’s guideline: Spatial Information Submission (ESR/2018/4337).

Where the PRC plan relates to a site where a NUMA or floodplain are not present, this should be stated in the spatial information submission email to which the relevant spatial files are attached.
