

Application form

Environmental Protection Act 1994

Application to amend a PRCP schedule or joint PRCP schedule and EA

This approved form is to be used when applying for a progressive rehabilitation and closure plan schedule (PRCP schedule) amendment or a joint PRCP schedule and Environmental Authority (EA) amendment under section 224 to 226B of the Environmental Protection Act 1994 (EP Act).

Before completing this application form it is recommended that you:

- Read the Guideline – Progressive Rehabilitation and Closure Plans (ESR/2019/4964¹), which explains the information required in a PRCP schedule.
- Have a pre-lodgement meeting. To request a pre-lodgement meeting, please fill out and lodge the form 'Application for pre-lodgement services' (ESR/2015/1664).

If you are applying for a PRCP schedule amendment and approval of the amendment application would result in the PRCP schedule to which the application relates being inconsistent with the relevant EA, you must also amend the relevant EA.

This application form is split in to three parts. The table below provides details of which parts must be completed for the different applications.

Parts of this form to be completed:

Part	Which applications must complete
Part 1 – Amendment application information	PRCP schedule amendment; and Joint PRCP schedule and EA amendment
Part 2 – EA amendment information	Joint PRCP schedule and EA amendment.
Part 3 – Declaration and payment of fees	PRCP schedule amendment; and Joint PRCP schedule and EA amendment

If you require assistance in answering any part of this form, or have any questions about your application, please contact the relevant business centre. Contact details are at the end of this form.

Application to amend a PRCP schedule or joint PRCP schedule and EA

The amendment to the PRCP schedule must not be inconsistent with the EA, otherwise you must apply to amend your EA. For further information see the guideline on Major and minor amendments (ESR/2015/1684) and s223 of the EP Act. If you have questions regarding whether your amendment will be a minor or major amendment you are encouraged to arrange a pre-lodgement meeting with the administering authority.

Section 4 – Major or Minor Amendment, EA

Is this application for a joint PRCP schedule and EA amendment?

No – Go to next section.

Yes – Provide details below.

Is the application for a major or minor EA amendment?

Major amendment for an EA.

Minor amendment for an EA (threshold).

For further information see the guideline on Major and minor amendments (ESR/2015/1684) and s223 of the EP Act. If you have questions regarding whether your amendment will be a minor or major amendment you are encouraged to arrange a pre-lodgement meeting with the administering authority.

Section 6 – Describe the proposed amendment

Provide a detailed description of your proposed amendment. Include justification of how your proposed amendment meets the criteria for a major or minor amendment and attach any supporting information to this application. If the amendment is to add or delete a location, tenure or activity, or to change the threshold of an activity, provide details below.

Please refer to EA Amendment Supporting information document and the updated Vulcan Coal Mine PRC Plan for additional information.

The VCM proposal has been through a number of state and federal approval processes that have included public review and comments processes. No public comments have been received on any application or approval process associated with the VCM. It is small in scale and impact, short in duration and lies within a broad and long term coal mining region. For these reasons, public notification is not considered required for this EA amendment application.

Application to amend a PRCP schedule or joint PRCP schedule and EA

I HAVE ATTACHED ADDITIONAL DETAILS FOR THIS SECTION AND PROVIDED DETAILS BELOW.

Include information regarding where the additional details are located Supporting Information for Environmental Authority Amendment Application and Vulcan Coal Mine PRC Plan

Section 7 – Describe the land that will be affected by the proposed amendment

Describe if the activity will be carried out within the existing designated areas of the environmental authority/PRCP schedule or a new area.

The proposed amendment primarily includes the establishment of a Coal Handling and Preparation Plant (CHPP), Train Load-out facility (TLO) and a dedicated rail loop on ML700060. Establishment of this infrastructure at the VCM Project provides Vitrinite with a reliable and secure mechanism for transport of its coal to market. Ancillary infrastructure will include product stockpiles, updated water management infrastructure, access roads and a number of minor amendments to existing infrastructure layouts.

Figure 2 of the Supporting Information for EA Amendment provides the site layout plan.

Please refer to EA Amednment Supporting Information document for additional information.

I HAVE ATTACHED ADDITIONAL DETAILS FOR THIS SECTION.

Section 8 – Environmental values

Attach a document that provides an assessment of the likely impact of the proposed amendment on all environmental values (EVs) listed. Note: Where there is no impact stated, justification must be included as to why this is the case.

Environmental Values

- Water
- Groundwater
- Wetlands
- Land
- Land Use
- Air
- Acoustic
- Waste

I HAVE ATTACHED A DOCUMENT THAT PROVIDES AN ASSESSMENT OF LIKELY IMPACTS ON EVs.

Application to amend a PRCP schedule or joint PRCP schedule and EA

Note that the EP Act, s226(1)(k) states the information required relating to impacts on EVs which include:

- (i) a description of the environmental values likely to be affected by the proposed amendment; and
- (ii) details of any emissions or releases likely to be generated by the proposed amendment; and
- (iii) a description of the risk and likely magnitude of impacts on the environmental values; and
- (iv) details of the management practices proposed to be implemented to prevent or minimise adverse impacts; and
- (v) details of how the land the subject of the application will be rehabilitated after each relevant activity ceases.

Part 2—EA amendment information

Part 2 only applies if your application is for a joint PRCP schedule and EA amendment, you must complete all sections in this part. If you are applying for a PRCP schedule amendment only, do not complete Part 2.

Section 15 – Type of application	
Does this application relate to a joint PRCP schedule and EA amendment application?	<input type="checkbox"/> No – Part 2 does not apply to you, do not complete the sections in this part. <input checked="" type="checkbox"/> Yes – Complete all of the sections in this part.

Section 16 – Checklist questions	
Is the amendment to correct a clerical or formal error?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, you cannot use this form. This request should be made in writing directly to the administering authority (no fees apply).	
Is the amendment to add an ERA to an amalgamated project authority and the proposed activity does not form part of the single integrated operation conducted under the authority?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, you cannot use this form. You will need to apply for a new environmental authority.	
Is the amendment to add an ERA to the authority and the addition of the activity would mean that the environmental authority does not meet the definition of 'ERA project'?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, you cannot use this form. You will need to apply for a new environmental authority.	
Is the amendment to remove or amend a condition requiring compliance with the eligibility criteria, and is a result of changes to the activity?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, you cannot use this form. Please make a site-specific application for a new environmental authority. Note: If the required amendment to the eligibility criteria condition is a result of factors beyond your control such as residential encroachment, rather than a change to the activity, you can use this form. The amendment will be a major amendment.	
Is the amendment to amalgamate two or more environmental authorities?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, you cannot use this form. Please use either the form 'Application to amalgamate two or more environmental authorities into an amalgamated corporate authority' (ESR/2015/1734).	
Is the amendment to amend estimated rehabilitation cost only?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, you cannot use this form. Please use the form 'Application for a decision on the estimated rehabilitation cost' (ESR/2018/4426).	
Is the proposed amendment to add a prescribed ERA, other than an ancillary activity, to an environmental authority for a resource project?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, you cannot use this form. You can apply using the standard, variation or site-specific application forms.	
Is the amendment for a partial surrender of an environmental authority for a mining activity?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, you cannot use this form. Please use the form 'Application for surrender or partial surrender of an environmental authority (resource activity)' (ESR/2015/1751).

Section 23 – Environmental Offsets

Will the ERA(s) being applied for cause, or be likely to cause, a significant residual impact to a prescribed environmental matter (other than a matter of local environmental significance)?

- No – Go to next section.
 Yes – Provide details below.

Yes - Attach supporting information that:

- details the magnitude and duration of the likely significant residual impact on each prescribed environmental matter (other than matters of local environmental significance) for the entire activity;
- demonstrates that all reasonable measures to avoid and minimise impacts on each of those matters will be undertaken;
- includes a notice of election, if it has not already been submitted; and
- if the activity is to be staged, details of how the activity is proposed to be staged.

An environmental offset may be required for an ERA where despite all reasonable measures to avoid and minimise impacts on certain environmental matters, there is still likely to be a significant residual impact on one or more of those matters. You must verify the presence, whether temporary or permanent, of those environmental matters. For more information refer to the State Significant Impact Guideline at the Queensland Government website, at: www.qld.gov.au/environment/pollution/management/offsets/index.html.

Section 24 – Regional Interest Areas

Is the activity a resource activity located anywhere within an area of regional interest?

- No – Go to next section.
 Yes – Provide details below.

If yes - Which area of regional interest, has or will require a regional interest development approval (RIDA)?

- Priority agricultural areas (PAAs)
 Priority living areas (PLAs)
 Strategic environmental areas (SEAs)
 Strategic cropping area (SCA)
 No RIDA required, I am an exempt activity.

If you have applied or been approved for a RIDA, provide the application reference:

Section 30 – Underground water rights	
Does the proposed amendment involve changes to the exercise of underground water rights?	<input checked="" type="checkbox"/> No – Go to next section. <input type="checkbox"/> Yes – Provide details below.
<input type="checkbox"/> I have attached a document that details:	
a) The areas in which underground water rights are proposed to be exercised;	
b) For each aquifer affected, or likely to be affected, by the exercise of underground water rights:	
a. a description of the aquifer;	
b. an analysis of the movement of underground water to and from the aquifer, including how the aquifer interacts with other aquifers and surface water and	
c. a description of the area of the aquifer where the water level is predicted to decline because of the exercise of underground water rights; and	
d. the predicted quantities of water to be taken or interfered with because of the exercise of underground water rights during the period in which resource activities are carried out.	
c) The environmental values that will, or may, be affected by the exercise of underground water rights and the nature and extent of the impacts on the environmental values;	
d) Any impacts on the quality of groundwater that will, or may happen because of the exercise of underground water rights during or after the period in which resource activities are carried out; and	
e) Strategies for avoiding, mitigating or managing the predicted impacts on the environmental values of the impacts on the quality of groundwater.

<p>An application fee is payable at the time the application is made. Information on the fee can be located in the information sheet 'Fees for permits for environmentally relevant activities (ERAs)' (ESR/2015/1721). Where the proposed amendment is determined by the administering authority to be a major amendment, an assessment fee of 30% of the annual fee for the authority at the time of application, is also payable. The assessment fee is payable once notification of the assessment level decision is issued. The assessment fee must be paid before the assessment of the amendment application can proceed.</p> <p>The supplementary annual fee is payable where the amendment is approved and results in the aggregate environmental score (and hence the annual fee) for the EA increasing. The supplementary annual fee is a pro-rata adjustment to the annual fee for the period from when the amended EA takes effect to the next anniversary day for the EA. This is payable within 20 business days after the approval date. The supplementary annual fee can be calculated using the 'Fee calculator' (ESR/2015/1731).</p>	

Section 35 – Declaration

Definitions of terms used in this form	
(Where there is inconsistency between the definition of terms used here and the terms used in the EP Act, the terms in the EP Act apply)	
Available for improvement	<p>In relation to land in an improvement area, means land in the area is not being mined, other than land to which any of the following applies–</p> <ul style="list-style-type: none"> a) the land is being used for operating infrastructure or machinery for mining, including, for example, a dam or water storage facility; b) the land is identified in the PRCP schedule or the application for an environmental authority relating to the schedule as containing a probable or proved ore reserve that is to be mined within 10 years after the land would otherwise have become available for improvement; c) the land is required for the mining of a probable or proved reserve mentioned in paragraph (b).
Available for rehabilitation	<p>For a rehabilitation area, means land in the area is not being mined, unless–</p> <ul style="list-style-type: none"> a) the land is being used for operating infrastructure or machinery for mining, including, for example, a dam or water storage facility; or b) the land is identified in the PRCP schedule or the application for an EA relating to the schedule as containing a probable or proved ore reserve, under section 126D(6) of the EP Act, that is to be mined within 10 years after the land would otherwise have become available for rehabilitation; or ba) the land is required for the mining of a probable or proved reserve mentioned in paragraph (b); or c) the land contains permanent infrastructure identified in the proposed PRCP schedule as remaining on the land for a post-mining land use.
Eligibility criteria	<p>For an environmentally relevant activity, means eligibility criteria that are in effect for the activity under –</p> <ul style="list-style-type: none"> (a) An ERA standard; or (b) A code of environmental compliance; or (c) A regulation in respect of a mining activity.
Environmentally relevant activity (ERA)	A resource activity or a prescribed ERA.
ERA Project	A prescribed ERA project or a resource project.
ERA Standard	For an environmentally relevant activity, means the eligibility criteria and/ or the standard conditions set by the administering authority.
Improvement area	For a non-use management area, means an area of land in the non-use management area to which a management milestone relates.
Land outcome document	<p>For land, means the following documents relating to the land–</p> <ul style="list-style-type: none"> a) an environmental authority for a resource activity on the land; b) a document made under a condition of an environmental authority mentioned in paragraph (a), if– <ul style="list-style-type: none"> i. the document relates to the management of a void within the meaning of section 126D of the EP Act on the land, or the

Major amendment	For an environmental authority or PRCP schedule, means an amendment that is not a minor amendment.
Management milestone	For a non-use management area, means each significant event or step necessary to– <ul style="list-style-type: none"> a) achieve best practice management of the area; and b) minimise risks to the environment.
Minor amendment	For an environmental authority or PRCP schedule, means an amendment that is – <ul style="list-style-type: none"> (a) for an environmental authority – <ul style="list-style-type: none"> i. a condition conversion; or ii. a minor amendment (threshold); or (b) for a PRCP schedule – a minor amendment (PRCP threshold).
Minor amendment (PRCP threshold)	For a PRCP schedule, means an amendment that – <ul style="list-style-type: none"> a) does not change a post-mining land use or non-use management area; or b) does not affect whether a stable condition will be achieved for land under the schedule; or

Application to amend a PRCP schedule or joint PRCP schedule and EA

	<ul style="list-style-type: none"> c) does not change the way a post-mining land use will be achieved, or a non-use management area will be managed, in a way likely to result in significantly different impact on environmental values compared to the impacts on the values under the schedule before the change; or d) does not relate to a new mining tenure for the schedule; or e) does not change when a rehabilitation milestone or management milestone will be achieved by more than 5 years after the time stated in the schedule when it was first approved; or f) does not extend the day by which rehabilitation of land to a stable condition will be achieved.
<p>Minor amendment (threshold)</p>	<p>For an environmental authority, means an amendment that the administering authority is satisfied—</p> <ul style="list-style-type: none"> (a) is not a change to a condition identified in the authority as a standard condition, other than— <ul style="list-style-type: none"> (i) a change that is a condition conversion; or (ii) a change that is not a condition conversion but that replaces a standard condition of the authority with a standard condition for the environmentally relevant activity to which the authority relates; and (b) does not significantly increase the level of environmental harm caused by the relevant activity; and (c) does not change any rehabilitation objectives stated in the authority in a way likely to result in significantly different impacts on environmental values than the impacts previously permitted under the authority; and (d) does not significantly increase the scale or intensity of the relevant activity; and (e) does not relate to a new relevant resource tenure for the authority that is— <ul style="list-style-type: none"> (i) a new mining lease; or (ii) a new petroleum lease; or (iii) a new geothermal lease under the Geothermal Energy Act; or (iv) a new GHG injection and storage lease under the GHG storage Act; and (f) involves an addition to the surface area for the relevant activity of no more than 10% of the existing area; and (g) for an environmental authority for a petroleum activity— <ul style="list-style-type: none"> (i) if the amendment involves constructing a new pipeline—the new pipeline does not exceed 150km; and (ii) if the amendment involves extending an existing pipeline—the extension does not exceed 10% of the existing length of the pipeline; and (h) if the amendment relates to a new relevant resource tenure for the authority that is an exploration permit or GHG permit—the amendment application under section 224 seeks an amended environmental authority that is subject to the standard

	conditions for the relevant activity or authority, to the extent it relates to the permit.
Non-use management area	Means an area of land the subject of a PRC plan that cannot be rehabilitated to a stable condition after all relevant activities for the PRC plan carried out on the land have ended.
Post-mining land use	For land the subject of a PRC plan, means the purpose for which the land will be used after all relevant activities for the PRC plan carried out on the land have ended.
PRC plan	For land the subject of a mining lease, means a progressive rehabilitation and closure plan for the land that consists of – <ul style="list-style-type: none"> a) the rehabilitation planning part of the PRC plan; and b) the PRCP schedule for the PRC plan, including any conditions imposed on the schedule.
PRCP schedule	For a PRC plan, means a schedule of the plan that – <ul style="list-style-type: none"> a) complies with section 126D of the EP Act; and b) is approved under chapter 5, part 5, division 2 of the EP Act, with or without conditions.
Prescribed ERA	An environmentally relevant activity that is not a resource activity and is prescribed under section 19 of the EP Act.
Prescribed ERA project	All prescribed ERAs carried out, or proposed to be carried out, as a single integrated operation.
Registered suitable operator	A person who, or a corporation which, under section 318I of the EP Act has been assessed as being suitable to carry out an ERA and has been listed on the suitable operator register.
Rehabilitation area	For land the subject of a post-mining land use, means an area of the land to which a rehabilitation milestone for the post-mining land use relates.
Rehabilitation milestone	For the rehabilitation of land, means each significant event or step necessary to rehabilitate the land to a stable condition.
Resource activity	An activity that is any of the following: <ul style="list-style-type: none"> (a) a geothermal activity (b) a greenhouse gas (GHG) storage activity (c) a mining activity (d) a petroleum activity.
Resource project	Resource activities carried out, or proposed to be carried out, under 1 or more resource tenures, in any combination, as a single integrated operation.
Single integrated operation	Occurs when all of the below criteria are met: <ul style="list-style-type: none"> (a) the activities are carried out under the day-to-day management of a single responsible individual, for example, a site or operations manager; (b) the activities are operationally interrelated;

<p>Underground water rights</p>	<p>Means any of the following:</p> <p>(a) underground water rights within the meaning of the <i>Mineral Resources Act 1989</i>;</p> <p>(b) underground water rights within the meaning of the <i>Petroleum and Gas (Production and Safety) Act 2004</i>;</p> <p>(c) underground water rights within the meaning of the <i>Petroleum Act 1923</i>, section 87(3).</p>

Attachment 1—Spatial data requirements for PRC plan

Attachment 1 provides guidance on the required content of spatial information (shapefiles) for the submission of a proposed amendment to a PRCP schedule. Spatial information is only required to be submitted with an amendment application where the application proposes to amend the final site design of the current approved PRCP schedule. This attachment should be read in conjunction with the department's guideline: Spatial Information Submission (ESR/2018/4337). To obtain a copy of the guideline, the spreadsheet containing the schema (in Table 2) and a shapefile template for PCR plans are available on the Queensland Government's website at www.qld.gov.au, using the search term "submission of spatial information". The following sections provide information about the required fields and attributes for datasets.

Required files—Table 1

If the application proposes to amend the final site design of the current approved PRCP schedule, you must submit shapefiles detailing the following in relation to the proposed amendment:

- the location and maximum extent of disturbance footprint for the mine life
- the PMLU and NUMAs for the area within the resource tenure(s)
- the rehabilitation and improvement areas within the resource tenure(s)
- any sensitive receptors
- extent of a floodplain
- existing rehabilitation.

A minimum of one (1) shapefile must be submitted for a PRC plan, detailing all the above-listed information, as outlined within Table 1. Each file must be named in accordance with the requirements outlined within the department's guideline: Spatial Information Submission (ESR/2018/4337).
